### **DISCLAIMER**

This free clinical trial of Lice No More is intended solely for the purpose of the eradication of head lice. All ingredients in Lice No More are 100% natural, FDA approved under NDC #61577-2280-03 and completely non-toxic. Participants agree to follow treatment protocol exactly according to directions. Lice No More and the affiliated companies of Sore No More™, Glo Germ™ Company and DMA International will accept no responsibility nor liability for adverse reaction or complication due to allergy or failure to follow treatment protocol. Participants agree to complete the Lice No More evaluation following treatment and return by March 1<sup>st</sup>, 2009.

Participant Signature: \_\_\_\_\_ Date: \_\_\_\_\_

Print Name: \_\_\_\_\_

#### **WARNINGS:**

- Do not apply Lice No More to any scalp which is scratched, cut or where there are any kind of sores on the head.
- Use caution when applying near the eyes, do not get Lice No More in the eyes.
- It is highly recommended for the person applying Lice No More to wear disposable gloves.
- Do not apply Lice No More to damp or wet hair.

#### **DIRECTIONS:**

- Generously apply Lice No More such that all hair and scalp are completely covered and well coated.
- Place all hair and scalp inside a plastic cap, such as a disposable shower cap.
- Allow treatment to set for three hours; for severe nits, allow treatment to set for 4 hours.
- After letting treatment set as directed, remove cap and shampoo thoroughly.
- After shampooing, use enclosed UV light in a darkened area to inspect the scalp for any remaining lice or nits. The remaining lice and/or nits will look like glowing dandruff.

## CLINICAL EVALUATION

Please complete each question as thoroughly as possible for each person treated.

1. Age of patient: \_\_\_\_\_ Male/ Female \_\_\_
