SAFETY DATA SHEET

Revision Date: 27-April-2021

1. Identification of the substance/mixture and of the company/undertaking				
Product identifier				
Product name	Glo Germ Powder All Colors			
Relevant identified uses	s of the substance or mixture and uses advised against			
Recommended Use Training aid used to determine cross-contamination avoidance, and surface cleaning effectiveness specifically to avoid transmission/spread of microbes. For external use only. See product label for specific use and instruction.				
Restrictions on Use	No information available			
Details of the supplier of	of the safety data sheet			
Supplier	Glo Germ Company 1101 South Murphy Lane Moab, UT 84532 800-842-6622 or 435-259-5931			
E-mail Address	info@glogerm.com			
Emergency telephone number				
Emergency telephone n	number 1 435-259-5931 ex-USA 1-800-842-6622 USA			

2. Hazards identification

Classification of the substance or mixture

GHS Classification in accordance with 29 CFR 1910.1200

OSHA Regulatory Status

This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.122)

Label elements

This product is not classified.

Other Hazards Hazards not otherwise classified (HNOC) Not Applicable

Other information

Not Applicable

Unknown Acute Toxicity

< 1% of the mixture consists of ingredient(s) of unknown toxicity

3. Composition/Information on Ingredients

Substance

Mixture

This material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

The exact percentage (concentration) of composition has been withheld as a trade secret.

4. First aid measures

Description	of first-aid	measures
-------------	--------------	----------

General advice	No information available.		
Eye contact	Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Keep eye wide open while rinsing. If symptoms persist, call a physician.		
Skin contact	Immediate medical attention is not required. Wash off with soap and water.		
Inhalation	Immediate medical attention is not required. Move to fresh air.		
Ingestion	Do NOT induce vomiting. Drink plenty of water. Consult a physician.		
Most important symptoms and effects, both acute and delayed			
Symptoms	See Section 2, Label Elements and/or Section 11, Toxicological effects.		
Indication of any immediate medical attention and special treatment needed			
Notes to physician	Treat symptomatically.		
5. Fire-Fighting Measures			
Extinguishing media			
Suitable extinguishing media Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.			
Unsuitable Extinguishing Media	None.		
Special hazards arising from the substance or mixture			
Special Hazard None known based on information supplied.			
Hazardous Combustion Products	Carbon oxides. Nitrogen oxides (NOx). Oxides of sulfur.		
Explosion Data Sensitivity to Mechanical Impac Sensitivity to Static Discharge	t None. Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.		
Advice for firefighters			

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation, especially in confined areas. Use personal protective equipment.

Environmental precautions

Dust deposits should not be allowed to accumulate on surfaces as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Avoid dispersal of dust in the air (i.e., cleaning dusty surfaces with compressed air). Nonsparking tools should be used. Prevent product from entering drains.

Methods and materials for containment and cleaning up

Methods for Containment	Prevent dust cloud. Cover powder spill with plastic sheet or tarp to minimize spreading.
Methods for cleaning up	Avoid dust formation. Take precautionary measures against static discharges. Do not dry sweep dust. Wet dust with water before sweeping or use a vacuum to collect dust. Use personal protective equipment. Take up mechanically and collect in suitable container for disposal. Prevent product from entering drains. Keep in suitable and closed containers for disposal.

7. Handling and storage Precautions for safe handling Avoid dust formation. Take precautionary measures against static discharges. Fine dust dispersed in air may ignite. Hygiene measures Handle in accordance with good industrial hygiene and safety practice. Conditions for safe storage, including any incompatibilities Storage Conditions Keep in a dry and cool place. Materials to Avoid No materials to be especially mentioned.

8. Exposure controls/personal protection

Exposure Guidelines

Appropriate engineering controls

Engineering Measures Showers Eyewash stations Ventilation systems.

Individual protection measures, such as personal protective equipment

Eye/Face Protection	Not required for normal use.
Skin and body protection	Not required for single use of short duration. For prolonged or repeated exposure, use impervious clothing over parts of the body subject to exposre.
Respiratory protection	Not required for normal use.

Hygiene measures

See section 7 for more information

9. Physical and chemical properties

Information on basic physical and chemical properties				
Physical state	Solid			
Appearance	Powder	Color	Off-white, Orange or Yellow under normal light. Under UV light, white will appear blue or green, Orange is	
			fluorescent Orange, and Yellow is fluorescent Yellow.	
Odor	Pungent	Odor Threshold	No information available	
	-			
Property_	Values_	Remarks • Methods		
Hq		No information available		
Melting/freezing point	110 °C / 230 °F			
Boiling point/boiling range		No information available		
Flash Point		No information available		
Evaporation rate		No information available		
Flammability (solid, gas)		No information available		
Flammability Limits in Air				
upper flammability limit		No information available		
lower flammability limit		No information available		
Vapor pressure		No information available		
Vapor density		No information available		
	1.37	NO INICITIATION AVAILABLE		
Specific Gravity				
Water solubility	Insoluble in water			
Solubility in other solvents		No information available		
Partition coefficient		No information available		
Autoignition temperature		No information available		
Decomposition temperature		No information available		
Viscosity, kinematic		No information available		
Viscosity, dynamic		No information available		
	Fine duct dispersed in air marinette			
Explosive properties	Fine dust dispersed in air may ignite			
Oxidizing Properties		No information available		
Other information				

Volatile organic compounds (VOC) None content

10. Stability and Reactivity

Reactivity

No dangerous reaction known under conditions of normal use

Chemical stability

Stable

Possibility of hazardous reactions

None under normal processing.

Conditions to Avoid

Dust formation. Take precautionary measures against static discharges.

Incompatible Materials

None known based on information supplied.

Hazardous Decomposition Products

None known based on information supplied.

11. Toxicological information

Acute toxicity

Numerical measures of toxicity: Product Information

Unknown Acute Toxicity < 1% of the mixture consists of ingredient(s) of unknown toxicity

Numerical measures of toxicity: Component Information

nformation on toxicological effects

Skin corrosion/irritation

Product Information
May cause irritation
Component Information
No information available

Serious eye damage/eye irritation

Product Information
May cause irritation
Component Information
No information available

Respiratory or skin sensitization

Product Information • No information available <u>Component Information</u> • No information available

Germ cell mutagenicity

Product Information

No information available

Component Information

No information available

Carcinogenicity

Product Information

• This product contains <0.1% free formaldehyde and may be capable of outgassing formaldehyde at levels in excess of OSHA's Action Level under some conditions of use. Formaldehyde is a known cancer hazard. Long term exposure may result in dermatitis or respiratory sensitization for sensitive individuals.

Component Information • No information available

Reproductive toxicity

Product Information • No information available <u>Component Information</u> • No information available

STOT - single exposure

No information available

STOT - repeated exposure

Other adverse effects

Product Information • No information available <u>Component Information</u> • No information available

Aspiration hazard

Product Information
No information available
Component Information
No information available

12. Ecological information

Toxicity

Ecotoxicity

No information available

< 1 % of the mixture consists of components(s) of unknown hazards to the aquatic environment

Ecotoxicity effects

Persistence and degradability

No information available.

Bioaccumulative potential

Discharge into the environment must be avoided

Mobility in soil

No information available.

Other adverse effects

No information available

13. Disposal Considerations

Waste treatment methods

Dispose of in accordance with federal, state, and local regulations.

14. Transport Information

DOT	Not regulated
MEX	Not regulated
IMDG	Not regulated
IATA	Not regulated

15. Regulatory information

U.S. Federal Regulations

SARA 313

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372

Pesticide Information

Not applicable

U.S. State Regulations

California Proposition 65

This product contains the following Proposition 65 chemicals:

Chemical Name		California Prop. 65		
Formaldehyde - 50-00-0			Carcinogen	
16. Other information				

<u>NFPA</u>	Health Hazard -	Flammability -	Instability -	Physical and chemical hazards -

Prepared By	Glo Germ Company	
Revision Date	27-Apr-2021	

Revision Note

27-Apr-2021

*Glo Germ Powder is manufactured in a plant that uses Formaldehyde. In 10 years of random sample testing at independent labs, Formaldehyde has not been detected in Glo Germ particles. The original manufacturing method included using Formaldehyde for "curing" and the nature of the process ensures that any remaining Formaldehyde is offgassed.

Disclaimer

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
